YOGESHWARA K

Full Stack Developer

Muvattupuzha, Kerala, India | yogeshreo@gmail.com | +91 97878 20695

PROFESSIONAL SUMMARY

Full Stack Developer with 3.5+ years of experience building production web and mobile applications, CRM platforms, e-commerce stores, and AI automation systems for clients in India and the US. Strong in React, Next.js, Flutter, Node.js, and NestJS, with hands-on payment, messaging, and cloud integrations (Razorpay, Stripe, Square, WhatsApp Business API, AWS).

TECHNICAL SKILLS

- **Frontend, Mobile & Desktop:** Flutter, React, Next.js, Electron (Windows offline desktop apps), TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI (MUI), Bootstrap
- **Backend & Databases:** Node.js, Express.js, NestJS, MongoDB, PostgreSQL, MySQL, Prisma, REST APIs, Webhooks, JWT Authentication, Microservices Architecture
- **Cloud & DevOps:** AWS (Amplify, SES, SNS, S3, CloudFront, Route 53), Docker, DigitalOcean, Cloudflare R2, Bunny Stream, Git, GitHub Actions, CI/CD Pipelines, Google Cloud Console
- **AI & Automation:** Amazon Bedrock, Gemini API, Google Imagen API, LLM API Integration, Prompt Engineering, AI Chatbots, AI Content Automation
- **Integrations & Payments:** Razorpay, Stripe, Square, WhatsApp Business API, Exotel API, Twilio API, Maps API
- **Platforms & CMS:** Shopify (Liquid), Zoho Sites, Astro

PROFESSIONAL EXPERIENCE

Full Stack Developer | TechieBall (https://techieball.com/) *July 2026 – Present*

- Architected and built the full-stack publishing platform on Next.js, Node.js, and MongoDB, optimized for performance and mobile responsiveness.
- Designed asynchronous backend queues, automated sitemap-submission pipelines, and custom analytics tracking.
- Built custom admin control panels for content workflows, search indexing, and performance telemetry.
- Built the AivaanTech AI Academy e-learning platform, built the Athmic Biotech enquiry and quotation portal, and built a multi-tenant GST billing SaaS (see Key Technical Projects).

Full Stack Developer | YTS (https://www.yakriatech.com/ | https://www.ytechsol.com/) *June 2023 – June 2026*

- Built and maintained 15+ production web and mobile applications using Next.js, React, Flutter, Astro, and Shopify.
- Engineered Node.js and MongoDB REST APIs and backend services, plus custom admin panels for booking workflows, lead management, refund processing, and automated user notifications.
- Integrated Razorpay, Stripe, and Square payment gateways with end-to-end refund handling, webhook verification, and transaction tracking.
- Managed WhatsApp Cloud API and BSP services for business clients, including API-level troubleshooting, webhook subscriptions, and Coexistence (hybrid Cloud API) migration support.
- Managed cloud deployments, DNS, storage, and serverless messaging on AWS (Amplify, Route 53, S3, CloudFront, SES, SNS).
- Developed an AI-powered Autoblog System using Node.js, Gemini API, Google Imagen API, Sharp, and GitHub Actions for automated content generation and deployment.

IT Developer | DMH *April 2023 – June 2023*

- Built the company web portal and custom web applications for client organizations.
- Led a 2-member developer team, covering code reviews, deployment pipelines, and production support.
- Improved web performance and added error logging and cross-browser responsiveness.

Intern (Unpaid) | DMH *October 2022 – March 2023*

- Completed an unpaid internship in web development, then moved into the IT Developer role at the same company.

KEY TECHNICAL PROJECTS

1. Multi-Tenant Bill Management System (GST Billing SaaS) | TechieBall *Stack: NestJS, TypeScript, Prisma 7 (PostgreSQL), Passport/JWT, exceljs, React 19, Vite, Tailwind CSS v4, Electron, Docker Compose*

- Built a full-stack, multi-tenant billing and invoicing platform with company-scoped data isolation; every query is scoped by companyId and enforced by a tenant guard.
- Implemented role-based access control (Super Admin / Admin / User) with global NestJS guards, decorator-driven permissions, and automatic audit logging through an interceptor.
- Designed a GST calculation engine supporting add-on and inclusive tax modes, using Prisma.Decimal for precision; the tax mode locks after a company's first invoice.
- Built a Super Admin portal covering tenant provisioning, subscription lifecycle (expiry guard returning HTTP 402), platform analytics, global maintenance mode, and scheduled and on-demand database backups.
- Built an offline Windows desktop version of the billing system using Electron.

2. AivaanTech AI Academy – E-Learning Platform (LMS) | TechieBall (https://www.aivaantech.com/ | https://learn.aivaantech.com/) *Stack: React, Next.js, Node.js, Prisma, PostgreSQL, Razorpay, Bunny Stream, Cloudflare R2, DigitalOcean*

- Full-stack developer on a live e-learning platform, covering the React and Next.js frontends and the Node.js, Prisma, and PostgreSQL backend.
- Built Razorpay payments and signed video delivery through Bunny Stream.
- Set up Cloudflare R2 media storage with WebP image compression and secure cookie-based authentication.
- Set up release-based CI/CD on DigitalOcean.
- Implemented GTM conversion tracking and data-driven SEO improvements.

3. ZHaulz – Furniture Delivery Platform (USA) (https://www.zhaulz.com) *Stack: Next.js, Node.js, MongoDB, AWS SNS, Square API*

- Architected a full-stack logistics and delivery platform for a Seattle-based US client.
- Designed admin dashboards to manage bookings, cancellations, full and partial refunds, and SMS notifications via AWS SNS.

4. WC LifeSaver – CPR Training Platform (USA) (https://www.wclifesaver.com) *Stack: Next.js, Node.js, MongoDB, Stripe API*

- Developed a full-stack course enrollment platform with Stripe payments and secure user authentication.

5. Cleomitra – CRM & WhatsApp Automation Platform Mobile app: https://cleomitra.app (Flutter) | Website: https://cleomitra.com (Next.js) *Stack: Flutter, Next.js, WhatsApp Business API, Exotel API, Twilio API, AI Chatbot (Amazon Bedrock)*

- Contributed to Exotel, Twilio, and WhatsApp Business API integrations and an Amazon Bedrock-powered AI chatbot.
- Enhanced Flutter mobile UI/UX components, resolved app performance bottlenecks, and supported customer onboarding and production troubleshooting.
- Assisted with the Google Play Store launch of the Cleomitra mobile app.

6. AI-Powered Autoblog Deployment System (https://yakriatech.com) *Stack: Node.js, Gemini API, Google Imagen API, Sharp, GitHub Actions*

- Built an autonomous blog publishing engine with AI text and image generation and WebP optimization.

7. Athmic Biotech Solutions – Enquiry, Quotation & Reporting Platform | TechieBall (https://athmicbiotech.com/) *Stack: Next.js, TypeScript, MySQL, JWT Authentication*

- Built a full-stack Next.js and TypeScript platform on MySQL with separate admin and client portals.
- Implemented JWT role-based authentication to control admin and client access.
- Delivered workflows for customer enquiries, quotations, and report delivery, plus a CMS for managing site content.

8. YORA & BeGoodEarth – E-Commerce Payment Integrations (https://theyora.com) *Stack: Shopify, Liquid, Razorpay, Stripe, Square*

- Customized storefront UI/UX, integrated Razorpay, Stripe, and Square checkout workflows, and optimized mobile store performance.

9. Fedrick Senior Care – Website (USA) (https://www.fedrickseniorcare.com/) *Stack: Next.js*

- Built a Next.js website for a US senior care client.
- Applied on-page SEO optimization across the site.

EDUCATION

- Bachelor of Arts (BA) in History, Alagappa University (2019 – 2022)
- Higher Secondary (12th Grade): 92.25%
- Secondary School (10th Grade): 94.4%

LANGUAGES

- English, Tamil
